

Oil & Gas Companies in Houston, TX US

- 2H Offshore Inc. - international consultancy specializing in engineering design, monitoring and integrity management of subsea structures for the offshore oil and gas industry.
- A2D Technologies - capabilities for petroleum well logging services
- ABS Group of Companies - contribute to the creation of a safe and environmentally friendly world through the provision of services that reach all sectors of business, industry and government.
- Accumulators - extensive line of hydro-pneumatic accumulators
- ACS Separations & Mass-Transfer Products - developing separations technology by providing high performance engineered product
- Advanced Valve Technology - is the world leader in applying reinforced composite technologies to ball valves, butterfly valves, check valves and other related products
- AES American Energy Services Inc. - widest product line of any valve manufacturer in the world
- Agar Corporation - innovative hydrocarbon/water/gas measurement and control devices for the up/down stream Oil industry
- Agar Corporation Inc. - monitoring instrumentation as flowmeters
- AIMS International, Inc. - design and installation of Corrosion Resistant composite structures and systems
- Alexander/Ryan Marine & Safety Co. - provides inspection, repair, refurbishment, field services, and certification services for a variety of equipment systems
- Alliance Engineering - develop and transport their oil and gas resources safely, efficiently and profitably
- Alliance Marine Services - independent organization, offering customized marine services to the maritime and offshore industries.
- Alloy Screen Works - leading independent manufacturer of premium screen filtration devices
- Allseas - major offshore pipelay and subsea construction companies in the world, operating specialised vessels
- Alpha Sim Technology - supplier of customized software solutions to the Petroleum Refining, Chemical Processing, Power Generation, Pulp and Paper and Information Technology industry
- Ambox Ltd. - metal working services to meet diverse requirements specialize in taking complex products from prototyping through full-scale production
- AMEC Paragon - one of the leading project management, engineering services and asset management organizations

- Amercable Systems - specializes in precision engineered, ready-to-use cable assemblies for complex oil and gas applications and portable power generation
- American Alloy Steel - alloy and carbon steel plate, precision flame cut steel plate shapes and pattern
- American Block MFG - travelling blocks (up to 1 000 tonnes), hammer union, swivel joints, pressure gauges, rotary tables and repair of mud pumps, blocks, swivels and so forth
- American Underwater Services Inc - commercial Diving inland and offshore, Pipeline, rig, inspection, ect.
- AmeriMex Motor & Controls, Inc. - offers a wide variety of high quality new and remanufactured AC/DC electric motors, generators, and motor controls to meet the power needs of any industry
- Amerjin Co.,LLC. - provide quality products and services for oilfield, petrochemical, marine and other industrial companies
- AMRI Inc. - manufactures butterfly valves, actuators, and accessories for many markets, including chemical, petrochemical, pulp & paper, water and semi-conductor
- Anadarko Petroleum - one of the largest independent crude oil and natural gas exploration and production companies
- Ansul/Tyco Fire & Security - sophisticated fire detection/suppression systems and a complete line of dry chemical, foam, and gaseous extinguishing agents.
- Antares Offshore llc - provider of niche engineering and project management services to the oil and gas industry
- Anthelion Systems, Inc. - Hardware and Software design company that specializes in Embedded Systems, Instrumentation, and Consulting
- Apache Corporation - is an independent energy company that explores for, develops and produces natural gas, crude oil and natural gas liquids
- Argus Subsea - revolutionary new subsea tree
- Astro Technology Inc. - provides complete solutions to complex problems using advanced instrumentation and innovative methods
- Atlantia Offshore Limited - leading turn-key provider of fixed offshore minimal production platforms
- Atlas Instruments & Supply Co., Inc - is a manufacturer of weight indicators and other field related instrumentation
- ATP Oil and Gas Corporation - develop already-discovered offshore petroleum reserves
- Atwood Oceanics Inc - international offshore drilling, and related support
- Azonix Corporation - diversified manufacturer of highly engineered industrial products
- Azura Energy Systems - manufacture and sale of wellheads, trees and valves for the land and subsea markets
- Baker Atlas - Advanced Well Logging, Wireline and Completion Systems
- Baker Hughes Inc - consultancy and engineering in oilfield drilling services

- Baker Hughes Incorporated - providing products and services to international oil companies, independent oil and gas companies and national oil companies
- Baker Hughes INTEQ - directional drilling, measurement-while-drilling (MWD), logging-while-drilling (LWD), coring systems and well-site information management service
- Baker Oil Tools - well drilling services, completion, downhole, workover and fishing tools
- Belsim - data validation technology in many process industries to deliver optimum solutions
- Bico Drilling Tools inc - manufactures and services downhole drilling motors
- Bishop Lifting Products, Inc. - fabricates and distributes lifting products to oilfield, petrochemical, construction, transportation
- Bisso Marine - provider of diving, heavy lift, offshore construction and salvage services.
- BJ Process & Pipeline Services - pipeline services that includes flooding, hydrotesting, cleaning, drying, commissioning, inline gas filtration, gel pigging, chemical cleaning, isolation,
- BJ Services (now part of Baker) - cementing, drilling, coil tubing, casing and other oilfield well services
- Blue Dolphin Energy Company - pipeline and oil gas exploration services
- Boots & Coots International Well Control - is a global emergency response company that specializes in offering prevention, response and restoration capabilities to the global needs of the oil and gas industries.
- BPZ Energy - is an oil and gas exploration and production company which has exclusive license contracts for oil and gas exploration and production
- Brown Corrosion Services, Inc. - corrosion, cathodic protection supply and service, corrosion control, corrosion monitoring equipment and systems, and sand and hydrogen monitoring systems.
- C.A. Richards & Associates, Inc. - diving, geophysical, government, navigation, oil and gas exploration drilling, and underwater robotics
- Cabot Oil and Gas - natural gas producer and marketer
- Cal Dive International - subsea construction, underwater diving services
- Callon Petroleum Company - engaged in the exploration, development, acquisition and operation of oil and gas properties
- Cameron - is a leading international manufacturer of oil and gas pressure control equipment, including valves, wellheads, controls, chokes, blowout preventers and assembled systems for oil and gas drilling
- Carrizo Oil and Gas - independent energy company engaged in the exploration, development and production of natural gas and oil
- Cavo Drilling Motors - oil field technical professionals with extensive drilling motor knowledge and experience
- ChainCo International - in automated chain testing, equipment and inspection, ChainCo also provides re-certification, repair and upgrades of heavy duty mooring systems

- Challenger Minerals Inc. - screener of oil and gas prospects in the Gulf of Mexico and the North Sea
- Cobalt International Energy - a private oil and gas exploration and production company focusing on the deepwater of the Gulf of Mexico and West Africa.
- Codeware, Inc. - develops software for design, rating, drafting and costing of ASME Section VIII pressure vessels and heat exchangers.
- Complete Production Services Inc. - completion, coil tubing, wireline, drilling services
- Con-Dive, LLC. - offshore industry subsea contractor
- Conoco Inc - integrated oil company explores for oil and gas production
- ConocoPhillips - an international, integrated oil gas exploration and production company
- Control Flow, Inc. - manufacturer of quality valves, offshore oil field drilling equipment, wellhead, production pressure control equipment and motion compensation equipment
- Cooper Cameron Corporation - provider of flow equipment products, systems and services to worldwide oil, gas and process industries.
- CRC-Evans Pipeline International, Inc. - manufacture equipment, sell and rent equipment, and subcontract pipeline construction services.
- Cudd Pressure Control - coil tubing and well pressure control equipment
- Cudd Well Control - knowledgeable pool of well control specialists and engineers focus on their fields of expertise
- Damcos - marine tank management, valve actuation and tank measurement, intended for use on ships and in the oil and gas industries
- DAN-LOC Bolt & Gasket - contract review, training, manufacturing, inspection, testing, and shipping
- Deepwater Corrosion Services Inc. - a full-service offshore corrosion control company, supplying the oil and gas industry with expertise in cathodic protection and anti-corrosion consulting
- Delmar - offshore mooring, providing the safest, most efficient mooring solutions for the oil and gas industry.
- Derrick Equipment Company - effective solids control is essential for economic and product efficiency in the drilling sector
- Derrick Services Ltd - General Fabrication, Engineering & Project Management, Offshore Construction Services
- Diamond Offshore - leading deepwater offshore subsea well drilling contractor
- Diamond Products International - global supplier of quality PDC Bits, Natural Diamond Bits
- Draco Spring Mfg. Co. - capabilities of producing virtually every type of spring, which also includes wire forms and metal stampings
- Dragados Offshore, S.A. - jackets (supports of platforms for crude extraction), turrets, decks, process, accommodation and FPSO modules, semi-submersibles, mooring buoys, modular plants, industrial equipment, etc.

- Draka Marine, Oil & Gas International - safe, reliable wire and cable solutions
- Dril-Quip - manufacturers drilling and production equipment as wellheads and tubing
- Dyna-Drill Technologies - an ultra-modern plant, computerized engineering capabilities, coated bearings, corrosion and mechanical fatigue
- EMS Pipeline Services - is an established energy measurement services company
- EnerGulf Resources Inc - international oil and gas exploration and production company
- Energy Alloys - global provider of oilfield metals solutions to the energy industry
- Energy Personnel International - experienced personnel for offshore (including deepwater) and onshore projects domestically and internationally
- Enertech Services International - provides multi-discipline engineering design, site support to construction, procurement and project management services to the upstream
- Engineered Spring Products - producing the highest quality springs
- Enventure Global Technology - is the world's leading provider of solid expandable technology for the energy industry
- EOG Resources, Inc. - independent (non-integrated) oil and natural gas companies in the United States
- EXMAR HOUSTON - diversified and independent shipping group serving the international gas and oil industry
- Exterran - Total Solution for your oil and gas production and processing facilities
- Exxon Mobil Corporation - world's premier oil, natural gas, LNG and petroleum products company
- F.W. Gartner - offers complete machining and grinding capabilities for turnkey service
- FabEnCo, Inc. - produced a wide array of fabricated metal products for various industries
- Fastorq Bolting Systems, Inc - global provider of precision bolt loading and removal solutions.
- Federal Flange - standard and custom flanges of lasting quality. '
- FloaTEC, LLC - deepwater floating production systems (FPS).
- FMC Technologies Subsea Systems - The world's leading supplier of subsea production systems.
- Forum Oilfield Technologies - single-source, broad-based supplier of equipment and technology for the oil & gas drilling and production industry.
- Freeman & Curiel Engineers - full service engineering company
- Fugro Geoservices Inc. - specializes in marine geohazards data acquisition, pipeline route surveys, and related geohazard consulting and permitting services

- Fugro McClelland Marine Geosciences - Project Management, Engineering Analysis & Consulting, Geological Studies, Data Acquisition & Engineering, Vessel and Marine Drilling Operations, Positioning & Surveying.
- GATE - is an oil and gas engineering consulting company
- Gaumer Process Heaters - supplier of electric industrial heaters, heating systems, and controls to the process industries
- GBA-Corona - provide flare equipment with the highest quality of design, materials and construction
- Generon® IGS Americas - designed to liquefy Nitrogen Gas produced from either Generon IGS's Nitrogen Membrane Generators or Pressure Swing Absorption Nitrogen Generators
- Geomechanics International - well planning, drilling, production and completion
- Geospace Engineering Resources International L.P. - leader in the seismic instrument and equipment business design, manufacture and deploy seismic instrumentation, reservoir monitoring, cable/umbilical and thermal imaging solutions
- Gill Services, Inc. - catheads, kelly spinners, power tongs, bucking units
- Gilmore Valve Co. - warehouse, machine shop, assembly and test with a number of CNC machines
- Global Project Consultants (GPC) - project/construction management & related services to energy-related companies and contractors
- Grace Instrument Company - provides highly automated instruments as well as traditional manual instruments
- Grant Geophysical - international seismic contractor
- Gulf Coast Downhole Technologies - manufacturer of downhole cable for permanent well monitoring systems
- Gulf Publishing Company - leading publisher to the oil and gas industry
- Gulf Research - syndicated and custom market research studies
- Gulfmark Offshore - international offshore marine services industry
- GustoMSC Inc - consulting firm providing a wide range of engineering services to the offshore industry
- Halliburton - cementing, seismic and oil and gas products Houston
- Hart Energy Publishing, LP - pipeline technology - natural gas and refined products pipelines throughout the world.
- HATEC Inc. - metric hydraulic components
- Helix Energy Solutions Group, Inc. - marginal field development, alternative development plans, field life extension, and abandonment
- Hercules Offshore - provider of offshore contract drilling, liftboat and inland barge services
- Hitemco Southwest - Specialty corrosion resistant fluoropolymers for subsea and process equipment
- Holloman Energy Corp - is an emerging international exploration, development and production independent

- Holloway Houston Inc. - distributor of wire rope and chain fittings
- Horizon Offshore Contractors - marine pipeline and diving construction to oil and gas industry
- Hot-Hed, Inc - honton-hed was established in houston texas in 1982 and manufactured a patented product for the oil and gas industry.
- Houghton Offshore - water based hydraulic chemicals and drilling fluids
- Houston Digital Instruments, Inc - Drillers Choke Control Console - Panel Gauges - Mud Gauges - Stroke Counters - Position Indicators
- Houston Distribution - swivel joints, pup joints, hose loops, check valves, pressure relief valves and high pressure fittings
- Houston Offshore Engineering, LLC - engineering services to support offshore oil and gas developments range from conceptual studies to detailed design and fabrication support
- Hydraquip - hydraulic, pneumatic, hose and tubing, kitting, fabrication, hydraulic power
- Hydril Pressure Control - manufacturers of tubulars as casing, drill pipe and tubing
- IDM Equipment, LTD - engineers and builds advanced drilling rigs and their component equipment
- Indumar Products, Inc. - STOP IT® PIPE REPAIR SYSTEM for repairing leaking pipes
- INTEC Engineering - provides engineering services to the Exploration and Production, Construction, and Transportation sectors of the energy industry worldwide.
- INTEC Engineering Partnership, Ltd. - Marine Pipelines and Risers, Marine Terminals, Subsea Production, Floating Production, and Liquefied Natural Gas
- Integrated Equipment, Inc. - Pressure And Flow Control Products For Working Pressures Up To 15,000 Psi
- InterMoor - is the leader in innovative mooring and installation technology
- International Paint LLC - offer an extensive range of high performance coatings for the oil, gas
- Intsel Steel Distributors. - plate burning, beveling, split tees, saw cutting (including miter cutting), blasting and painting
- J Ray McDermott - design, fabrication, transportation and installation of offshore platforms, and installation of offshore pipelines.
- Jamison Products, L.P. - products which include Strainers, Filters, Pig Equipment, ASME Code Vessels, pipe fabrication, and other Oil and Gas related equipment
- Jelec USA Inc. - providing expertise in Electrical, Monitoring and Instrumentation Systems for the Marine and Oil & Gas Industries
- Jogler, Inc. - Level Gages to determine the level of liquid in a tank or vessel
- JP Kenny - subsea system and oil gas pipeline engineering company, maps and data

- JT Oilfield Mfg.co.Inc - manufacture, repair and sale equipment used in oilfield and drilling industries.
- K-DYNE, INC - liquid level switch and sensors
- KnightHawk Engineering, Inc - technology based specialty engineering company that performs consulting, field services, and testing.
- Kor-Lok USA, LLC - leading supplier of instrumentation valves, tube fittings and pipe fittings
- Landmark Graphics - software, consultancy and engineering for seismic and exploration
- Leading Edge Turbine Technology, Ltd - high-quality repair services for the power generation, pipeline, petro-chemical and paper mill industries.
- LHR Services & Equipment, Inc. - Forged Mooring Hardware for the most demanding mooring applications in the world
- Logan Oil Tools - ditch magnets; safety joints; hydraulic fishing jars; jar energizers and intensifiers; fishing bumper subs;
- M-I SWACO - providing drilling, drill-in and completion fluids and services. Production chemicals. Solids control equipment, pressure control equipment
- Maine Oil & Gas Corporation - is an emerging, integrated oil and gas company focused on the acquisition of and development of assets in the gulf of guinea
- Mako DeepWater - inspection, repair and maintenance
- Marathon Oil Company - worldwide exploration and production of crude oil and natural gas
- Marinetek (USA), Inc - technical services within marine hydrodynamics, construction engineering and operations technology
- Maverick Tube - products and services for the drilling, completion, and production cycles of oil and natural gas.
- MCM Oil Tools - Valve, Manifold, Choke, and Control Panel manufacturing company
- MCS Limited - engineering professionals creating advanced engineering solutions for floating production and subsea field developments
- MEDC International - manufacturers of Alarm, Signal and Control Equipment
- Mentor Subsea Technology Services - developing new, innovative concepts for production and subsea systems
- Merrick Systems, Inc - integrated software solutions and project services for upstream oil and gas production operations
- Metal Coatings Corporation - industrial coating applicator, applies coatings to various machined component parts, assemblies, and fasteners of different shapes and sizes.
- MEXSSUB International, Inc. - provides pipeline system Production Integrity Solutions to the Oil & Gas Industry.
- MIB Engineers - is a registered engineering and design company with a world class experience base and local industry knowledge
- MIB Technical Solutions, Inc. - engineering and design expertise to Oil and Gas companies

- Micro-SMART Systems, Inc. - electronics and built-in diagnostic algorithms
- MicroTesla - wireline directional instrumentation products and services
- MODEC International L.L.C. - on offshore energy resources, use of FPSO/FSO systems
- ModuSpec USA, Inc. - your global partner for strategic, tactical and operational risk analysis management services
- Mohr Engineering Division - Industrial Testing, Mechanical Design, Product Development and Engineering Consulting
- Momentum Chemical, LLC - Specialty coatings and chemicals used in molding operations including oil and gas, tire,
- Moss Seal Company - emphasize the solving of customer sealing seals problems
- MSI Oilfield Products - market leader in OCTG thread protectors and pipe protection products
- Multiphase Solutions, Inc. - is an internationally-focused provider of technical consulting services and software systems.
- Mustang Engineering - field development, pipeline and structural engineering
- NATCO Group Inc. - has always been at the forefront of oil industry production processing
- National Bronze & Metals, Inc. - are leading manufacturers and distributors of brass, bronze, and copper alloys
- National Oilwell - downhole completion tools used in oil and gas drilling and production
- National=K=Works Inc. - designer of thermohousings and down-hole equipment
- New Continental Equipment Co., Ltd. - drilling rig packages, triplex mud pumps and expendables, traveling equipment, wellhead equipment, handling tools, spare parts, and service.
- Newfield Exploration Company - is an independent crude oil and natural gas exploration and production company
- Newpark Drilling Fluids - largest drilling fluids company in the world
- Norriseal - A Dover Company - supplier of valve and control solutions
- Northern Offshore - operates five drilling units in South East Asia and Europe and one floating production unit currently based in the southern UK
- Ocean Flow International - provides Technical, Engineering, Commercial, and Management expertise,
- Oceaneering International - remote intervention ROV, marine and mechanical engineering
- Oceaneering Multiflex - design and manufacture of subsea control umbilicals for offshore applications
- Oceaneering Space & Thermal Systems - astronaut tools and equipment, robotics and automation, tele-science and automated science systems

- OceanWorks International Inc - specializing in manned and unmanned subsea work systems for key international marine industries
- Oderco Inc. - specialized in the engineering, designing and manufacturing of oilfield drilling equipment and rig packages
- Offshore Marine Cable Specialists - supplies Amphenol connectors, Hawke glands, transits, enclosures and junction boxes, Burndy lugs and connectors, and Redapt adapter threads.
- Offshore Specialty Fabricators, Inc. - true turnkey project services with no built in contingencies or surprises.
- Oil and Gas Investor - source for information about the financial world of oil and gas.
- Oilair Hydraulics INC - is the first name in advanced hydraulic accumulators. OilAir is part of the Olaer Industries group of companies.
- Oidata Logging Service Inc. - independent, solution-based Service Company delivering customized, cost-effective well-productivity enhancement solutions
- Oilfield-Electric-Marine, Inc. - AC drives and motors specifically designed for the drilling and marine industries
- Omron IDM Controls - total automation package, with special attention on drives and motors
- OPE Inc - engineering and project management services
- Orion Marine Group Inc - provides a broad range of marine construction and specialty services on, over and under the water along the Gulf Coast,
- Overseas Equipment Services, Inc. - oil and gas drilling & well service industry in the Middle East and North Africa
- OYO Geospace, Corp. - manufacture thermal imaging equipment and distribute dry thermal film products to the commercial graphics industry
- Paragon Engineering Inc - engineering, consultancy, project management, and construction company
- Pathfinder Energy Services - core business lies in Logging-while-drilling and Measurement-while-drilling Services, Directional Drilling Services and Down-hole Drilling Motors
- Patriot Mechanical Handling, Inc. - Crane and hoist suppliers for the offshore petroleum industry offering hydraulic, and marine deck lifting cranes
- Patterson Services, Inc - a provider of drill pipe, blowout preventers, and specialized rental tools
- Patterson Tubular Services - Tubular, oilfield, inventory, inspections, handling, barge,
- Pegasus International Inc - field development, subsea and pipeline engineering consultants
- Pem-Tech, Inc. - development and production of quality gas detection systems for petrochemical industries
- PennWell MAPSearch - information provider to the oil, gas, electric and related industries

- Petron Industries Inc - manufacturer and supplier of drilling rig instrumentation and control systems to the international oil and gas industry
- Pileco, Inc - consult and service offerings that are capable of supporting clients worldwide.
- Pipeline Pigging Products, Inc - manufacturer of Internal Pipeline Cleaners referred to in the trade as "Poly Pigs."
- PowerWell Services - PowerWell Testing, Power Chokes, Petrotech, and Flarestack
- Precision Tube Technology - manufactures coiled line pipe and downhole products for subsea and oil and gas drilling.
- Pride International - is one of the world's largest offshore drilling companies with an increasing focus on deepwater and other high-specification drilling services
- PSRG Inc. - Process Safety Management, Risk Management, Loss Prevention, and Process Plant Reliability solutions to the refining, gas processing, petrochemical
- QCI Marine Offshore, LLC - turnkey marine construction company specializing in the construction and renovation of living quarters
- Quality Tubing - coiled tubing products, and through the development of its proprietary technology
- Rapid-Torc Inc - designs and manufactures a full range of Hydraulic Torque Wrenches and industrial maintenance tools
- Retsco Ltd. - A high tech manufacturer of reset relief valves for the oil field industry.
- Rowan Companies - offshore contract drilling, workover and well services
- RR Valve, Inc. - high tech manufacturer of reset relief valves for the oil field industry
- RSVP Actuators & Controls - Scotch-Yoke Actuator
- Sandwell International Inc. - engineering contractor in industrial process, transportation, power, petroleum, manufacturing
- SBM-IMODCO Inc. - Floating Storage and Offloading (FSO) and Floating Production Storage and Offloading (FPSO) systems
- Scorpion Offshore Inc - fleet of ultra-premium jackup offshore drilling rigs
- Scorpion Oil Tools - Scorpion is breakout makeup dual position hydraulic chain tong for outside diameters from 2 3/8 to 36 inches with high torque
- SeaBird Exploration Americas Inc. - is a global provider of marine 2D and 3D seismic data
- SeaCAT, LP - manufactures high pressure, subsea umbilical tubing for chemical injection and hydraulic control of deepwater
- Seacor Marine Inc - operates a fleet of offshore marine support vessels, serving the global offshore oil and gas exploration and production industry
- Seemap - a comprehensive range of exploration products focused on the marine seismic survey industry

- Seamar Divers, Inc. - is an independently owned, full service diving contractor, offering a variety of specialized services
- Seitel Incorporated - provider of seismic data and related geophysical services to the oil and gas industry
- SGF Global, Inc. - engineering and technical personnel to the Latin American Oil & Gas, Petrochemical,
- Shaw Pipeline Services - vibrant and diversified force in the global energy services market.
- Shell Oil Company - is one of the largest major oil and natural gas companies
- Shell Technology Ventures, Inc. - developing new technologies that increase productivity, maximize efficiency, and promote sustainable development.
- Smart Pipe Company, LP - liner system and the manufacturing/installation system
- Smith International - engineering, drill bits, downhole tools and drilling fluids
- Sonardyne Inc. - manufacturing of subsea survey and positioning instrumentation
- Songa Offshore - two semisubmersibles, Mata Redonda and La Muralla
- Sonsub - remotely operated vehicles ROV and tooling systems
- Southwest Oilfield Products, Inc. - products such as, Liners, Rods, Valves, Seats and other expendables.
- Specific Equipment company - fluid handling systems for water, fuel and crude oil
- Spinnaker Exploration Company - independent energy production company
- SPN Resources - acquire, operate and abandon mature properties in the Gulf of Mexico
- Stabil Drill - rental tools, including stabilizers, non-magnetic drill collars, hole openers, reamers, mills, subs and the SMFI Hydroclean
- Stewarts-USA - manufacture of high quality gauges and pressure instrumentation products.
- Stress Engineering Services, Inc. - specialize in using a multi-disciplinary approach to solve complex engineering problems
- Stress Subsea, Inc. - subsea tieback, pipeline design, field architecture development, and project management services
- Subsea Solutions - providing subsea technical support services to operators and drilling contractors
- Superior Wellhead Inc. - exploration, drilling and production wellhead equipment.
- Swift Oil and Gas - the leading specialist supplier of manpower resources to the global Oil & Gas industry
- T. H. Hill Associates, Inc. - technical drilling engineering and quality management and training services
- T3 Energy Services, Inc. - manufacture, remanufacture, and distribution of oilfield products and services to the oil and gas industry

- TALON Technical Sales - physical Measurement (Temperature, Pressure, Force/Weight, Torque, Flow, Moisture, Vibration, Level and Gas Detection), Signal Conditioning, Indication, Data Acquisition (Hardware & Software)
- TAM International, Inc. - manufactures and services one of the widest ranges of inflatable Casing Annulus Packers (CAP™) and accessories
- Tek-Rap Inc. - manufactures a series of coating systems, which are used to protect the exterior of pipelines and fittings against corrosion.
- Tetralene Elastomer Incorporated (TEI) - engineering design services, compound testing and manufacturers a wide range of custom molded elastomeric seals, packing and components
- Tetralene Incorporated - machines custom high performance thermoplastic components and manufactures custom spring energized seals
- Tex-A-Draulics, Inc. - system design and manufacturing, service and repair, and a complete product line of hydraulic and pneumatic hose and fitting
- Texma Petroleum Machinery - specializes in the development of mud pump fluid end expendables to customers all over the world
- TGS-NOPEC Geophysical - consultancy geophysical seismic data and associated products
- The REACH Group - specializes in the implementation of Performance Improvement programs for industry
- Thrustmaster of Texas, Inc - manufactures heavy duty commercial marine propulsion equipment, including deck-mounted propulsion units
- Titan Technologies International, Inc. - bolting solutions provider committed to offering the most reliable and comprehensive bolting solutions world wide
- Titan Technologies International, Inc. - hydraulic and pneumatic bolting fasteners products
- TODCO - is a U.S. domiciled oil and gas drilling contractor headquartered in Houston, Texas.
- Torp - specializing in the development and industrialization of oil & gas related technology
- Total Safety U.S., Inc. - safety needs of the oil and gas industry, worldwide.
- Transocean - the world's largest offshore well services drilling company
- Triple S Steel Supply - national distributor of structural steel, ornamental iron, welding supplies, and hardware.
- TSC Manufacturing & Supply Co. - manufacturer and supplier of drilling rig related equipment and supplies
- Tubacex America Inc. - Manufacture SEAMLESS Nickel Alloy, Duplex/Super-Duplex OCTG, Hollow Bars
- Tube Supply Inc. - offer a complete line of sizes, grades and services including heat treating, boring, honing, cutting and machine work
- Tubular Instrumentation & Controls - a service company specializing in various stainless steel tubing and hose installations related to the gas and oil industry.
- U.S. Bolt Manufacturing, Inc. - complete line of hot forge specialty fasteners for hostile environments and critical applications

- Ultima Labs, Inc - provide full service design and manufacturing services to the oilfield service industry.
- Universal Compression Holdings Inc. - provides various natural gas compression services and compressors products
- UTEX - designs and manufactures sealing products for almost any type of service or application
- Utex Industries - mechanical seals, high-tech compression packing, and maintenance chemicals
- Vantage Drilling Company - offshore drilling company with a balanced fleet comprised of floaters and jack-ups.
- Vantage Drilling Company - offshore drilling company with a balanced fleet comprised of floaters and jack-ups.
- VetcoGray - wellheads, Xmas trees, BOPs and subsea and topside systems
- Vortex Ventures Inc - applications including eductors, shear mixers, hydrocyclones, cyclones, high volume slurry mixers, density separators
- W-H Energy Services Inc. - logging-while-drilling, measurement-while-drilling, directional drilling, down-hole drilling motors
- Wave Imaging Technology Inc. - is a specialty seismic processing firm
- Weatherford International - supplier of downhole and completion tools
- Well Control School - leading provider of training and certification services to the world-wide oil industry.
- Well Data Technologies - deliver performance improving results to operators and drilling contractors across the globe.
- Well Flow International LLC - research to meet the challenging technical problems that arise in oil production
- Wellogix - providing online software for the oil and gas industry
- Western Well Tool - nonrotating drillpipe casing tubulars protectors
- Westney Consulting Group - focus is on major projects in the oil & gas, chemicals & pharmaceuticals industries.
- Whitefield Plastics Corporation - producer of castable polyurethane molding
- Wild Well Control - firefighting, well control and related engineering services
- Wilkens Weather Technologies, L.P - specialize in offshore and marine forecasting for the oil & gas and petrochemical industries
- Wireline Technologies, Inc. - tools for use with directional drilling equipment
- WOM - Worldwide Oilfield Machines - design, manufacture, and testing of Drill Through Well Control Equipment
- Wood Group Engineering & Production Facilities - provides valuable reservoir information, allowing customers to optimize production while minimizing the chance of reservoir damage
- Wood Group Pressure Control - equipment from BOP stacks, gate valves and casing to wellheads
- Zentech - an engineering consulting and software development company,
